LOT S4b - Graco Slimfit 3 in 1 Car Seat | Slim & Comfy Design Saves Space in Your Back Seat, Redmond SlimFit R

Item Condition New

Description

edmond Item Condition : New In Packaging?: No Assembly Required: No Missing Parts?: No Functional?: Yes UPC: 047406176199 Damaged?: No The Graco SlimFit 3-in-1 Car Seat grows with your child, from rear-facing harness (5-40 lb) to forward-facing harness (22-65 lb) to highback booster (40-100 lb). It saves space in your back seat, while giving your child plenty of room to grow. The unique, rotating cup holders simply rotate away, making the seat 10% slimmer to save precious back seat space. The Simply Safe Adjust Harness System means you can easily adjust the harness and headrest together, to accommodate your growing child with ease. With 4 recline positions, you can keep your child comfortable, while the InRight LATCH system makes installation easy with a one-second attachment. The seat is Graco ProtectPlus Engineered to help protect your little one in frontal, side, rear, and rollover crashes. Rear-Facing Harness: 5-40 lb, head must be at least 1 below handle; Forward-Facing Harness: 22-65 lb, up to 49; Highback Booster: 40-100 lb, 43-57, at least 4 years old.

STOP using this child restraint and throw it away 10 years after the date of manufacture. Recommended Use Children are safer riding rear-facing and should ride rear-facing as long as possible, until they reach the maximum rear-facing height or weight rating for their car seat. Then children should ride forward-facing, using the built-in harness system for as long as possible until they reach the maximum forward-facing weight or height for their car seat. At that point, children should ride in a belt-positioning booster seat. A booster is no longer needed once the vehicle seat belt fits properly, typically when they reach 4 feet 9 inches tall and are between ages 8-12. Be sure to check your local and state laws, as well as AAP and NHTSA recommendations, for car seat usage.* *Graco Supports the American Academy of Pediatrics and National Highway Traffic Safety Administration's Car Seat Guidelines. Visit our safety page for information on car seat usage recommendations.
