**Item Condition** Used - No Return

### Description

\$97 4.5-6.3 Inches Freely Adjustable & Knob Lift Unlike other elevated stands that can only be adjusted at a fixed height, our elevated stand allows you to adjust between 4.5-6.3 inches freely. Our knob lift design allows you to adjust it with one hand, and you don't need to move the monitor, which is more trouble-free and more convenient than other elevated stands. Strong Bearing Capacity & Widely Applicable Our elevated stand adopts upgraded materials and designs. The thick ABS hard plastic material allows the elevated stand to bear 50 pounds easily. The compact and solid design and production make it very stable and does not shake at all. Not only suitable for monitors and laptops but also for speakers, printers, coffee machines, etc... Comes with a hidden mobile phone holder for better work We thoughtfully designed a hidden mobile phone holder on the monitor stand, so that you can use your computer and mobile phone for work and entertainment at the same time, saving you the trouble of rummaging for your mobile phone. You can easily retract the phone holder when not using it, keeping the monitor stand tidy. Increase storage space & tidy desktop In

addition to increasing the height of the monitor, our stand also increases storage space for you. You can place items on top and bottom of the stand to make your desktop look tidier. This is a choice that kills two birds with one stone! Exquisite workmanship, definitely high quality Our monitor stand has a beautiful matte surface, has a very good texture, leaves no marks, and it always looks clean. The corners of the stand are rounded to prevent scratching you or the desktop. A non-slip silicone pad is added to the bottom of the stand to make it more stable and safe. Believe me, it will be worth your money!.
