### Description

**\$30 Rapid Heating:** This space heater delivers 1500W power for quick and warmth. The portable design allows placement by your feet on the floor, beside your hands on the office desk, or for carrying around indoors. It's also suitable for tent use. This compact heater can warm areas up to 200 square feet. **Comprehensive Safety Protection:** ETL certified with features like tip-over and protection, along with an enhanced safety plug. Built with flame-retardant materials, ensuring ultimate safety from all aspects. **Energy-efficient:** The ECO mode automatically adjusts the heating level to reach your desired temperature, providing precise and warmth. The 70 wide-angle oscillation covers the entire area, offering widespread heat for your bedroom, garage, basement, office, desk, and more. **Multiple Modes of Operation:** Various modes including High/Medium/Low/ECO/Fan Only cater to different heating needs, from powerful heating to

energy-saving ECO heating. The heater with remote control enables an easy balance between heating and efficiency, the remote control requires two 3A batteries (batteries not included). It operates quietly, allowing you peaceful sleep or work. The 1500W desktop indoor heater is highly portable, allowing you to carry it outdoors whenever needed. The space heater is suitable for home, large rooms, indoor spaces, living rooms, bedrooms, basements, offices, and tent usage, among others..
