Item Condition   Open Box - Not Tested

Description

$23 Large LED Display Digital Wall Clock - Zgrmbo digital clock has a 16.2-inch large screen display, 4.25-inch contrast clear jumbo digits make it much easier to view and read even from a great distance and from all angles. A rich display wall-mounted digital clock with time, date, indoor temp, week, ideal for Gym/Shop/Warehouse/ Garage/Office. HANDY REMOTE CONTROL - A Clock This Big Deserves its Own Controller! Adjust LED Brightness, Set Time, Set Alarm, or Set Timer. Note: If you can't find the remote control and USB cable, be sure to open the other end of the box to check. Convenient in Every Detail - Come with an 11.5ft Long Power Cord, it is convenient for the clock to be wall-mounted in any required position. Hidden Coiled Cord Design, no need to worry about the power cord being too long. Custom/Auto Brightness - With a 10-level adjustable brightness display, you can easily set the screen to your preferred brightness by pressing the brightness and + / - button on the remote control. You can also press the brightness button on the remote control twice to turn on the auto-brightness mode, and the clock will automatically adjust to the most suitable state according to the surrounding brightness. CONVENIENT STOPWATCH & TIMER - Fulfill all your timing needs with one device. Set a timer for a recipe, beat your personal best on your next workout, or countdown the minutes on your next family

game night. OUTLET POWERED ONLY & MEMORY FUNCTION - While it is a must be plug-in digital wall clock, the 1* CR2032 battery backup helps you save time and settings. You do not have to reset the settings when reconnecting after a power outage. The screen goes off during battery backup..
